Homework Helpers	6-9	20	11.00am - 12.00pm or 12.00pm - 1.00pm

The Stem Lab Pakistan

Here's to excitement, joy, dynamism and learning as we welcome our students to the summer camp at Leo's Workshop. Through these 3 weeks of hands-on activities based on science, technology, engineering and mathematics, we not only intend to engage students in STEM education but also help them develop a growth mindset and build critical thinking skills. Students participating in this after-school club will be able to draw authentic connections with the world around them through practical, fun and learning-oriented activities.

Looking forward to lots of exploration, innovation and meaningful learning, led by the students.

What's included in the programme:

- Sensory STEM and motor skills
- Introduction to electric circuits
- Creating non-Newtonian fluids
- Experimenting with safe chemicals
- STEM challenges & scavenger hunts
- Elephant toothpaste
- Smart electronics like a piano using buzzers with Arduino

Prep for School

Enrol your toddler in the fun-packed Mommy & Me Exploration programme which includes activities that will help your child grow, learn and develop!

From learning how Vashti improvised and excelled in her art drawings by making a simple dot, to munching on all the food. The Very Hungry Caterpillar ate only to become a beautiful butterfly and ended up by diving deep into the sea to explore different sea animals!

What's included in the programme:

- Arts & crafts
- Games & adventure
- Sensory play
- Shapes & patterns
- Phonics
- Story Telling
- Dance & music
- Fine motor & gross motor activities
- Language enrichment & development
- Yoga
- Math

Art and Drama

Our Art and Drama Club sparks creative energy in learners by strengthening their thinking and learning while actively harnessing their curiosity, creativity, and imagination. Our variety of workshops allow children to practice age-appropriate skills, keeping key areas of the curriculum focused through visual and performing arts.

What's included in the programme:

- Storytelling
- Symmetry of features
- Acting out loud
- Body movement
- Pattern work
- Art of breathing
- Voice modulation
- Fingerprint exploration

Physical Fitness

This fun filled and exciting sports camp is designed to keep children busy in healthy physical activities that will improve their coordination skills, strength and stamina.

What's included in the programme:

- Monday: Gymnastics
- Tuesday: Football (Eye/Foot Coordination)
- Wednesday: Taekwondo/Kickboxing
- Thursday: Basketball (Eye/Hand Coordination)

Homework Helpers by Leo's Workshop

Is the summer heat burning you out? Is the summer homework stressing you out?

Leo's Workshop is offering a Homework Helpers Programme, which will help children with their school homework, reinforcing the concepts following our concept-based approach and experiential learning strategies.
