Da Vinci CLUB by Leo's Workshop

Age groups:
(4 - 5 years and 6 - 10 years)

The Da Vinci's Minions Art Club offers a Reggio Emilia-inspired workshop tailored to spark creativity and nurture holistic development in children aged 4-6 and 6-9. We focus on creating an immersive classroom environment where every element contributes to the learning experience. Through observation, children will sharpen their observational skills, learning to identify and understand the fundamental aspects of art

Learning outcomes:

1. Skillful Creations: From drawing lines to molding clay, kids develop fine motor skills while crafting their masterpieces.
2. Sensory Spectacle: Dive into a world of textures, colors, and materials, enhancing sensory exploration and artistic expression.
3. Shape Shifters: Hunt for shapes, mix vibrant colors, and create nature-inspired art to sharpen visual recognition skills.
4. Creative Chaos: Encourage storytelling, imaginative play, and collaborative projects to unleash boundless creativity.
5. Eco-Artists Unite: Transform recycled materials into stunning artwork and learn about sustainability with nature-themed activities

Homework Helpers by Leo's Workshop

Age groups:
(4 - 5 years and 6 - 10 years)

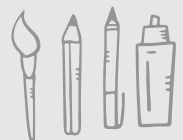

Is the burden of summer homework weighing you down? Worry no more! Leo's Workshop has the perfect solution for you with our Homework Helpers Programme.

PBL by Leo's Workshop

Age groups:
(6 - 10 years)

Welcome to an innovative approach to education that transcends traditional boundaries and ignites a passion for learning in your child: Project-Based Learning (PBL).

Our summer camp is not just any camp; it's a gateway to a transformative educational journey guided by the United Nations Sustainable Development Goals (SDGs). Every lesson is meticulously designed to not only educate but also empower young minds to make a meaningful impact on the world. Join us as we embark on a voyage of discovery, innovation, and positive change through Project-Based Learning.

Music Club by Leo's Workshop

Age groups:
(4 - 5 years and 6 - 10 years)

The Music Club offers a two-week immersive experience for children fostering a love for music while building a foundation in music literacy. Through interactive activities, instrument exploration, and multicultural music appreciation, participants develop an understanding of music theory and notation. They will also explore digital music production tools and collaborate on creative projects.

Makers' Mania by Leo's Workshop

Age groups:
(4 - 5 years and 6 - 10 years)

Welcome to the Kids' Maker Space, where imagination meets creation! Here, young minds will experience the future through the exciting world of science, engineering, math, coding, and the arts (STEAM). A variety of hands-on activities will transform these children from dreamers into doers.

Math:

Spatial Reasoning:

Students will be able to build and manipulate objects to recreate simple geometric shapes (e.g., squares, triangles) using age-appropriate materials.

Engineering:

Students will be able to design a simple structure (e.g., bridge, tower) using provided materials. Students will be able to observe and record the results of their experiments and explain the relationship between cause and effect.

Coding:

Students will be able to create simple programs using a block-based coding interface to control basic actions (e.g., move forward, turn) in a virtual environment (e.g., robot simulation).

Problem-solving and Logic:

Students will be able to apply problem-solving and logical thinking skills to develop their code.

Science:

Students will be able to follow simple experiment procedures to investigate a scientific phenomenon.

Mommy and Me by The Kidz Workshop

Age groups:
(2.5 - 4 years)

The 'Mommy & Me' program is curated to stimulate natural curiosity of kids through pre-occupational play based activities while touching upon foundation basics. This is also an excellent opportunity for parents to bond with their child with the spirit of teamwork.

10 days of interdisciplinary learning includes:

- story telling
- arts & crafts
- sensory play
- Reggio inspired activities
- dance & music
- language enrichment
- phonics & sounds
- developing motor skills
- math
- basics of urdu

And SO much more!

Jr. Chef by Baked by B

Age groups:
(4 - 5 years and 6 - 10 years)

Baking Magic Unleashed! Embark on a delightful journey of independence and skill-building with our kid-friendly baking class!

It's more than just mixing flour and sugar; it's about empowering our little chefs with the confidence to create, experiment, and grow. Through the simple act of baking, children not only learn to follow recipes but also enhance their motor skills.

Our easy-to-follow recipes ensure that every child can participate, learn, and have fun.

Poetry Club by The Lahore Heritage Club

Age groups:
(6 - 10 years)

The primary goal of this two-week workshop is to introduce children to the world of poetry, focusing on analysis and creation. By engaging in various activities such as reading poetry, exploring translation, and writing their own poems, participants will enhance their language skills, creativity, and appreciation for literature.

Learning Outcomes:

By the end of the workshop, participants will not only have a deeper understanding and appreciation of poetry but will also have developed their own poetic voice.

Physical Fitness by Signs of Spring

Age groups:
(4 - 5 years)

Signs of Spring summer sports camp program at Leo's Workshop aims to foster holistic development in children by focusing on physical fitness, mental resilience, and strategic thinking. Through a diverse range of activities including physical development classes, gymnastics, self-defense / Taekwondo, football, zumba dance, and chess, children are encouraged to enhance their coordination, motor skills, strength, flexibility, stamina, and strategic thinking abilities.

Chess Club by Signs of Spring

Age groups:
(6 - 10 years)

The Chess club provides an immersive experience in strategy and competition, where young minds learn tactical manoeuvres, problem-solving, and sportsmanship in a supportive and engaging environment.

Woodworking Club by One Earth Toys

Age groups:
(4 - 5 years)

Our toys are inspired by Reggio Emilia and Waldorf education philosophies. Our open-ended toys encourage children to use their imagination. They aid in developing problem solving, language, motor and social-emotional skills in children.

At the summer camp, children will participate in wood activities such as sanding, cutting, and fixing their wooden toys.

Learning Outcomes

- Develop hand-eye coordination
- Name and learn to use woodworking hand tools and basic machines
- Develop a sense of agency and confidence

Decoupage Art by Harf Calligraphy

Age groups:
(6 - 10 years)

Decoupage is a french technique, involving an intricate process of embellishing items like pots, boxes and furniture with decorative paper. From transforming everyday objects to up-cycling cherished furniture, children will delve into a hands-on journey, mastering decoupage alongside techniques like chalk paints, stencilling, and gold leafing, fostering both creativity and sustainability.

Learning Outcomes:

By the end of the 10 sessions, children will have gained comprehensive experience in decoupage art and furniture transformation, while also honing their creativity and artistic skills.

Coding Club by Codekids

CODEKIDS

Age groups:
(6 - 10 years)

This summer, ignite your child's passion for technology and innovation at Code Kids Summer Camp! At Code Kids PK, we create a stimulating environment tailored for children aged and 6 & above. Our programs allow students to delve into the world of coding through engaging in hands-on activities. From exploring the complexities of coding in Minecraft and Roblox to developing their very own mobile apps, each session is designed to inspire creativity and a deep understanding of technology.
