## **Planet X: The Mission Possible!** by Leo's Workshop

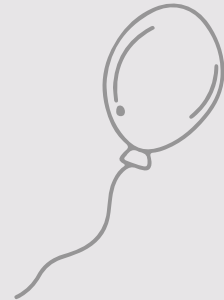

**Age groups:**  
(6 - 10 years)

Calling all future astronauts, engineers, and dreamers!

Get ready for an epic two-week mission where YOU become a space explorer on a top-secret quest to uncover the wonders of our solar system! In the final mission, each explorer (or space squad!) will design a rocket, chart a course, and land on a chosen planet—or even invent their own mysterious world: Planet X. Present your interstellar discoveries in a galactic showcase like no other.

Are you ready for lift-off?

Your mission awaits. Planet X: Mission Possible.

## **The Bug BNB** by Leo's Workshop

**Age groups:**  
(6 - 10 years)

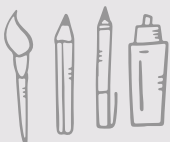

In this two-week project, students become junior ecologists and architects as they explore the fascinating world of minibeasts (insects and bugs). As their final project, students will design and build a real bug hotel using recycled and natural materials. The project connects science, environmental awareness, design, and geography giving students a well-rounded understanding of nature and biodiversity.

## **Public Speaking Club** by Leo's Workshop

**Age groups:**  
(6 - 10 years)

The Public Speaking Club is a two-week program designed to help children find confidence in their voice and express their thoughts with clarity. Through interactive games, storytelling, and performance-based activities, kids will explore the importance of tone, pace, and pause, while developing key skills like eye contact, body language, and audience connection to make their next public speaking engagement a more impactful one.

**Leo's  
Workshop**

A Future School by TNS Beaconhouse

## **Makers Mania by Leo's Workshop**

### **Age groups:**

(4 - 5 years and 6 - 10 years)

Spark curiosity and ignite imagination this summer at our Maker's Studio—a hands-on adventure where young scientists dive into the wonders of biology, chemistry, physics, and engineering! From exploring microorganisms and brewing up bubbling chemical reactions to designing bots and building electric circuits, kids will experiment, create, and think like real scientists. Whether you're a curious biologist, budding chemist, or future inventor, this camp is all about learning by doing, testing ideas, and turning imagination into innovation—all while having a blast!

## **Art Club by Leo's Workshop**

### **Age groups:**

(4 - 5 years and 6 - 10 years)

Art Enthusiasts Alert! Step into a world of imagination and self-expression with the Art Club at Leo's Workshop! Through hands-on activities like painting, collage-making, sculpture and mixed media, children will not only refine their artistic skills but also build confidence in their ability to express themselves. So, let's grab our brushes, dip into a world of creativity, and make this summer a colorful adventure to remember!

## **Jr. Chef by Baked by B.**

### **Age groups:**

(4 - 5 years)

Embark on a delightful journey with our kid-friendly baking class! It's more than just mixing flour and sugar; it's about empowering our little chefs with the confidence to create, experiment, and grow. Through the simple act of baking, children not only learn to follow recipes but also enhance their gross motor development. Our easy-to-follow recipes are designed ensuring that every child can participate, learn, and have fun.

## Theatre Club by دیپ ناؤ

**Age groups:**  
(6 - 10 years)

دیپ ناؤ is a social enterprise committed to weaving visual and performing arts into education. Rooted in the belief that art is an essential part of human expression, دیپ ناؤ develops language and arts-based curriculum, leads workshops, trains educators, and brings stories to life through theater and storytelling sessions

### About the Facilitator:

Waqas Manzoor is a multidisciplinary artist blending theatre, storytelling, photography, and poetry to celebrate cultural expression. As founder of دیپ ناؤ he integrates the arts into education. A LUMS graduate, he earned the Shaila and Tahir Andrabi Award (2020) for leadership and service. His work has gained international recognition, including the Prince Claus Seeds Cultural Practitioner Award (2023).

## Music Club by Leo's Workshop

**Age groups:**  
(4 - 5 years and 6 - 10 years)

The Music Club offers a two-week immersive program for children aged 4 to 9, fostering a love for music through interactive activities, instrument exploration, and digital music creation. Kids will develop music literacy, collaborate on creative projects, and showcase their talents in a final performance. Join us for a fun-filled journey of creativity and self-expression!

## Physical Fitness by The Signs of Spring

**Age groups:**  
(4 - 5 years and 6 - 10 years)

The Signs of Spring summer sports camp program aims to foster holistic development in children by focusing on physical fitness, mental resilience, and strategic thinking. Through a diverse range of activities including physical development classes, gymnastics, self-defense / Taekwondo, football, zumba dance, and chess, children are encouraged to enhance their coordination, motor skills, and strategic thinking abilities.

## **Homework Helpers by Leo's Workshop**

**Age groups:**  
(4 - 5 years and 6 - 10 years)

Is the burden of summer homework weighing you down? Worry no more — Leo's Workshop has the perfect solution! Introducing our Homework Helpers Program — a fun, supportive space where children can tackle their summer assignments with confidence and ease. Led by experienced facilitators, this program blends productivity with creativity to make homework feel less like a chore and more like a summer win!

## **Toy Building Club by One Earth Toys**

**Age groups:**  
(4 - 5 years)

The Toy Building Club by One Earth Toys is an engaging, hands-on workshop designed to spark creativity and curiosity in young minds through the art of toy-making. Over the course of two weeks, children will explore a variety of traditional and eco-friendly crafting techniques, including puppet making, origami, clay modeling, wooden toy making, and even toy repair. Each activity is carefully designed to enhance fine motor skills, problem-solving, and imaginative play, while also fostering an appreciation for sustainability and handcrafted materials.

## **Coding Club by Code Kids**

**Age groups:**  
(6 - 10 years)

This summer, ignite your child's passion for innovation and tech at Code Kids Summer Camp. From exploring the complexities of coding in Minecraft and Roblox to developing their very own mobile apps, each session is designed to inspire creativity and foster a deeper understanding of technology.

**Leo's  
Workshop**

A Future School by TNS Beaconhouse

## **Mommy & Me by The Kidz Workshop**

**Age groups:**  
(2.5 - 4 years)

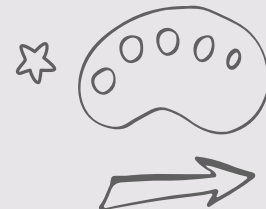

The Kidz Workshop is back with a bang with yet another year of the most sought after "Mommy & Me" camp in collaboration with Leo's Workshop 2025

The 'Mommy & Me' program is curated to stimulate natural curiosity through prevocational play based activities. This is also an excellent opportunity for parents to create a stronger bond with their child in the spirit of teamwork.

10 days of interdisciplinary learning includes:

- Storytelling
- Arts & crafts
- Sensory play
- Reggio inspired activities
- Dance & music
- Language enrichment
- Phonics & sounds
- Fine & gross motor development
- Social and emotional development
- Basics of Urdu

And SO much more!
